

PITCH

Name: Golden hands : become a master of knitting

Description: We will create an online learning platform to teach people how to knit. It will include video courses, projects and a progress tracker for users. You will be able to enroll in various levels of classes. Creators can upload content and tutorials that students can follow.

User story mapping:

Story 1 : Login

As a user

I want to login to the website

So I can access my data from the website (from the backend)

Acceptance criterias :

A login form pops up

The user can fill in fields

The user can submit the form

Story 2 : Register

As a user

I want to create (register) an account

So I can put data on the website (on the backend)

Acceptance criterias :

A registration form pops up

The user can fill in fields

The user can submit the form and the information is sent to the backend

Story 3 : Access courses by level

As a user

I want to access a course depending on my level

So I can follow it

Acceptance criterias :

The user can click a button for accessing the course

The user can scroll the page to access the entire information

Story 4 : Access videos

As a user
I want to access a video from course
So I can watch the video

Acceptance criterias :
The user can play the video
The user can comment the video
The user can like the video

Story 5 : Track progress

As a user
I want to see a tracking progress line
So I can visualize my progress

Acceptance criterias :
The user can zoom to see the weekly, monthly, yearly progress

Story 6 : Submit images of projects

As a user
I want to upload images of my projects
So they can be validated(?)

Acceptance criterias :

The website should support the format of the image
There is a limit size on the image

Story 7 : Publish course

As a user
I want to be able to publish a course
So others can follow it

Acceptance criterias :

Required field are present
The user can delete the course
The user can modify the name of the course

Story 8: Follow accounts of course creators

As a user

I want to be able to follow others' profiles

So I can keep up with their courses

Acceptance criterias :

The follow button changes to followed when clicked

The posts of the followed user appears in the feed of the user who followed that user

Story 9 : Be able to rate a course

As a user

I want to be able to rate a course

So I can organize which courses I enjoyed most

Acceptance criterias :

The user can rate the course from 1 to 10

The average rating appears on user's profile

The amount of 1 stars, 2 stars, 3 stars appears on user's profile

Story 10: Post our own projects on a tab

As a user

I want to be able to post my own projects

So I can show my progress to fellow users

Acceptance criterias :

The user can fill out a form and upload images or videos for their project

The user can choose if their project is public, private, or for friends only

The user can change or remove their project
