

PITCH

Name: Golden hands : become a master of knitting

Description: We will create an online learning platform to teach people how to knit. It will include courses that users can access and learn from. Users can also make an account and change their settings.

There are 3 roles : regular, premium, and guest. On the courses page, guest has no access, regular can access the courses with a difficulty less or equal to 2 and premium can access to all courses

User story mapping:

Story 1 : Login

As a user

I want to login to the website

So I can access my data from the website (from the backend)

Acceptance criterias :

A login form pops up

The user can fill in fields

The user can submit the form

Story 2 : Register

As a user

I want to create (register) an account

So I can put data on the website (on the backend)

Acceptance criterias :

A registration form pops up

The user can fill in fields

The user can submit the form and the information is sent to the backend

Story 3 : Access courses details

As a user
